

# WIJET.G and WIJET.Video

**PLUG 'N' PLAY Wireless Presentation Solution**

**Connect the WiJET to a projector, plasma or other display device**

**WIJET.G or  
WIJET.Video**  
802.11g wireless  
display adapter

## Models:

### WIJET.G

*For PowerPoint presentations, slide shows, spreadsheets and other productivity applications*

### WIJET.Video

*Offers all the functionality of the WiJET.G and can also play MPEG1, MPEG2 and non-commercial DVDs -wirelessly.including both sound and vision.*

The WiJET 802.11g wireless display adapters eliminates the hassle of running VGA cables for making presentations using projectors, plasma and LCD displays as well as standard PC monitors. No more untidy cables dangling from ceiling mounted projectors or cables that have to be taped down to prevent presenters from tripping over them when using wall mounted display devices.

**Connect your 802.11g WiFi-enabled  
PC to the WiJET  
You are connected!**
